Dear Chairman & AOGA Committee members

**Ref: Donation from AOGA to UCAN**

On behalf of UCAN I would very much like to thank you for your most generous donation of £25,000 which we received recently. Your donation will go towards our latest fundraising campaign, the aim of which is to raise £2.5m to fund the purchase of Scotland's first Robotically Assisted Surgical System (RASS). Our goal is to bring this very latest advanced technology in minimally invasive keyhole surgery to the North of Scotland, which will benefit all patients who require general, gynaecological or urological surgery in the future.

At present work has started on the new theatres to house the RASS at Aberdeen Royal Infirmary and the total amount raised, as of August 2013, is just over £500,000. Clearly we still have a long way to go before reaching our target but with your support and that of others we are confident it will be achieved.

Thank you once again for your very valuable support of UCAN and our latest campaign which is very much appreciated.

Yours sincerely

Professor Sam McClinton  
UCAN Chairman & Consultant Urological Surgeon, Aberdeen Royal Infirmary

# Certificate of Appreciation

## AOGA

**Thank you for your support**

**& generous donation of**

**£25,000**
